DESCRIPTION

NAUTITECH 40 – 2017 | Panama

The Nautitech 40 is one of the most impressive sailing catamarans in her size range, combining excellent sailing performance, comfortable accommodation and practical design for extended cruising.

For her length, she features an impressively tall rig, offering good sailing potential and enjoyable performance under sail. Her twin-wheel steering system provides excellent visibility from both helm stations, while the well-protected cockpit offers a secure and comfortable space for life on board. The layout also allows easy movement between the two hulls and convenient access to the main saloon.

This 2017 Nautitech 40 is the sought-after 3-cabin version with two bathrooms, making her an attractive option for couples, families or sailors looking for a comfortable cruising catamaran.

She has been equipped and maintained with sailing enjoyment in mind. The port engine was replaced in 2022, the genoa is in like-new condition, and the Vectran mainsail was replaced in 2022. A bowsprit with gennaker adds versatility under sail, providing additional performance potential in lighter winds.

The navigation equipment includes a large Garmin chartplotter at each helm station, complemented by a third chartplotter at the navigation table, offering convenient access to navigation information both on deck and inside.

Located in Panama, this Nautitech 40 represents an interesting opportunity for anyone looking for a well-equipped sailing catamaran, whether for cruising the Pacific, exploring Central America or embarking on longer sailing adventures.
